**TRIVALENT WORKSHOP
LISBON, OCTOBER, 14 - 15
2019**

**“TEST AND VALIDATION OF THE
CHATBOT ASSOCIATED WITH THE NEW
MODEL OF COOPERATION BETWEEN
LEAS AND CIVIL SOCIETY”**

This project has received funding from
the European Union's Horizon 2020

TRIVALENT is an EU funded project which aims to a better understanding of root causes of the phenomenon of violent radicalisation in Europe in order to develop appropriate countermeasures, ranging from early detection methodologies to techniques of counter-narrative.

- **Project Research Aims**
- **To develop on the basis of a theoretical multidisciplinary study complex multidimensional models for better understanding the root-causes and related specific characteristics of violent radicalisation, defining different categories of radicalised individuals as well as providing a set of early detection indicators;**
- **To critically assess strengths and weaknesses of different types of policies for countering radicalisation by testing them in the context of national and local experiences through a comparative analysis, with emphasis on best practices, aiming at the definition of a set of policy recommendations targeting different types of radicalised individuals;**
- **To work out instruments for the analysis of specific online contents and communication codes used by extremist groups, with an aim to contribute to the creation of media communication strategies directed to spread, both online and offline, an alternative narrative and counter-narrative;**
- **To study and contribute to improved information exchange and more effective means of cooperation, coordination and communication between LEAs, local authorities/communities and civil society actors;**
- **To study and contribute to elaborate suitable means and countermeasures to prevent youth radicalisation in the families and at schools, as well as to develop measures to contrast the spreading of extremism among those detained;**
- **To strengthen and update existing methodologies and to improve competencies, skills and characteristics of the practitioners involved in preventing, detecting or countering violent extremism;**
- **To validate with LEAs partners, other practitioners and civil society actors, the results achieved by the research/study activities, and to disseminate them in the various institutional and social contexts.**
